

Life Rx Mission

Life Rx strives to advance and support the advancement of health care, public health patient care and all interests that serve both the medical and pharmacy profession.

In Pursuit of our mission, Life Rx shall be to:

- Advocate the interests and advancement of pharmacy services and unity.
- Advance the professions code of professional ethics as adopted by the board of director. Advance membership and communication of information to members.
- Advance the public image of the profession of pharmacy, pharmacist and other health care professions.
- Conduct organizational activities in advancing public health education and professional roles of pharmacists and other health care professionals.
- Provide services to members, including but not limited to, negotiating with third party insurances and vendors for group discounts and other incentives.
- Promote the safe effective, rational and evidence based use of medications, therapeutic agents and medical devices issued or dispensed by pharmacists and other health care professionals for the prevention of illness, treatment of a medical condition or maintenance of health.
- Encourage a high standard of moral and professional conduct of members in professional relations with the public allied health professions and fellow pharmacists.
- Provide educational support in preparing pharmacist and other health care practitioners.

The Life Rx Group is a professional membership society of registered pharmacists, student pharmacists, pharmacy technicians, and others who reside, work, attend college, and are interested in pharmacy and health care professions.
